

Icy Blue Ointment

Article No. 2374 (105 g/3.7 oz.)

Icy Blue Ointment is an external pain-relieving gel that provides quick, cooling temporary relief for muscle aches, minor arthritis pain and simple backache. Its high-menthol formula with alcohol makes this our most cooling rub—almost like putting your pain on ice! For those who really want to “cool down.” A must for every athlete’s gym bag.

Why Watkins?

- **Deep penetrating formula:** Absorbs into skin to relieve pain, leaving no greasy film; reduces muscular discomfort due to overexertion, fatigue and strains; provides temporary relief from minor aches and pains associated with simple backache, arthritis, bruises, sprains and stiffness.
- **Gel base:** Easy to apply; no mess or waste; long-lasting; non-greasy.
- **Non-staining:** Clothing worn over treated areas won’t be affected.
- **Quick-acting:** Absorbed rapidly to relieve soreness and relax muscle tension.
- **Refreshing aroma:** Product is pleasant to use; no “medicinal” smell.

Active Ingredients

- **Menthol:** An alcohol extracted from peppermint oil. When applied to the skin, menthol produces an intense and lasting cooling sensation that counteracts pain, and is also used as an antipruritic. It both stimulates the nerves for perception of cold, and depresses those which transmit pain.

Also Contains:

Alcohol 44% w/w
