

Stain Pro Stain Removers

Article No. 6722 Grease, Tar & Gum Remover

Article No. 6716 Rug Cleaner

Watkins Stain Pro products are industrial-strength stain removers for the home. Highly concentrated yet environmentally-friendly, these products are perfect for tackling tough jobs in a budget-conscious and earth-conscious age.

Why Watkins?

- **Super-concentrated:** A little goes a long way; highly effective, yet economical.
- **Low environmental impact:** Non-corrosive, phosphate-free, and biodegradable.

Grease, Tar & Gum Remover:

- **d-Limonene:** A highly-effective natural solvent extracted from citrus fruits. This volatile oil works by dissolving tar, grease, motor oil, gum, adhesives, tape, sticker residue, and other stains.
- **Versatile:** Can be used on a wide variety of surfaces, such as fabrics, vinyl upholstery, and hard surfaces like formica, linoleum, ceramics, and porcelain..

Rug Cleaner:

- **High-foaming cleaners:** Special surfactants surround and lift soil stains.
- **Specially-selected biostrains:** Beneficial microorganisms act as “enzyme factories,” enhancing the breakdown of, and actually digesting, residual organic stains and odor sources.
- **Optical Brighteners:** Absorb invisible ultraviolet light and send it back as visible light, making carpet fabrics appear brighter.
- **Anti-resoil agents:** Resist further staining, dirt and odors.
- **Safe for “stain-resistant” carpet.**

Important

Always follow directions for cleaning and test for colorfastness. Clean garments or carpets according to manufacturer's directions.

Not recommended for professional cleaning machines or steam-cleaning machines.
